## 8<sup>e</sup> JOURNÉES FRANCOPHONES DE BIOLOGIE MÉDICALE

October 8–10, 2025

EXHIBITION AND CONGRESS CENTER

### Cannes - Mandelieu

We chose **Mandelieu-la-Napoule** to organize the 8th Francophone Days of Medical Biology at the Expo Congress Center, for an event that we wanted to be "**green and dynamic**."

For this 8th edition, we invite you to continue last year's winning formula. Professor Pierre Flori will lead the new scientific committee, designed to be as comprehensive as possible, to address the many facets of medical biology. Through multiple sessions, including several plenary sessions, as well as simultaneous workshops and sponsored presentations, the scientific committee will offer you a 360° view of the various biology exercises.

We will also continue the poster prize, rich in exchanges with candidates and partners, as well as the award ceremony for the "180-second challenge" competition; one of the facets of the success of our event.

Finally, we will be developing our application, capitalizing on its success during the previous edition, in order to provide an even better conference experience.

Thus, the program and the schedule of this event now established in the landscape of biology will be built for you, dear congress participants.

Yes, we, the Organizing Committee, the Scientific Committee and all the biologists, **are waiting for you at the 8th JFBM in Cannes Mandelieu.**

**Raphael BERENGER,**  
*President of SNBH and JFBM*

In 2024-2025, the JFBM and e-JFBM have succeeded each other successfully, which augurs well for a rich and varied scientific program for our future JFBM in autumn 2025. It is therefore with immense pleasure and great pride that we welcome you to Cannes-Mandelieu for our 8th JFBM.

This year, the program was built with numerous partners:

On the union side, "Medical Biologists" and the SNBHCHU as well as the FNSIP-BM representing our interns joined us. Regarding the Colleges and Societies, the CHH, CNBH, ColBVH, SFBC, and SFTA worked to create this scientific program. We were also able to count on international stakeholders such as the EFLM and the FIFBCML.

This program is suitable for everyone. It takes into account the different ways in which medical biology is practiced in hospital settings (CH, CHU, ESPIC) and in private practice.

In conjunction with our local partners, an inaugural roundtable discussion on "sport, health, and well-being," a theme aligned with our "sporty and dynamic" host city, will kick off our conference. On the same topic, we will conclude our JFBM with a high-level scientific conference on the physiological benefits of sports activity.

As in previous years, the core of our JFBM will be a series of 33 workshops, taking place over 3 days from Wednesday 8 to Friday 10 October 2025. Thanks to the ongoing work of the scientific committee, this program combines workshops "for dummies", daily practices, managerial or on more specialized themes.

This year, we would like to highlight an intermediate plenary conference on "the attractiveness of our profession", but also on numerous cross-cutting themes such as our daily practices in France and abroad, decarbonization, digital technology, the financing of our profession, the orientations of the way our youngest members practice, the promotion of our applied research work and existing links with industrial laboratories...

These themes reflect the diversity of our profession and our commitment to promoting continuous learning adapted to all.

Finally, I would like to highlight the space dedicated to scientific posters, which demonstrates the vitality of our community. Open to all, these posters are an opportunity for our youngest and most experienced colleagues to present their work, exchange ideas, and build valuable connections for their professional development.

On behalf of the entire scientific committee, I wish you enriching days, full of discoveries and encounters, and I hope that you will fully enjoy your stay in Cannes Mandelieu.

**Professor Pierre FLORI,**

*President of the JFBM Scientific Committee*

# SCIENTIFIC PROGRAM

## WEDNESDAY, OCTOBER 8

Reception of congress participants from 8 a.m.

9 AM - 10:15 AM

SNBH GENERAL ASSEMBLY

10:15 AM - 10:45 AM RECEPTION - COFFEE BREAK IN THE HEART OF THE PARTNERS' AREA

10:45 a.m. - 11 a.m. INAUGURATION OF THE JFBM

OPENING CONFERENCE: AUDITORIUM

**SPORT & HEALTH  
SPORT AS A COMPANY'S HEALTH CAPITAL**

**Stéphane Diagana**

*400m hurdles world champion, sports consultant & speaker*

11 AM - 1 PM

**RECOMMENDATIONS ON THE INTEGRATION OF PHYSICAL ACTIVITY INTO THE  
CARE PATHWAY AND THE ESTABLISHMENT OF A NATIONAL SPORTS-HEALTH STRUCTURE.**

**THE EXAMPLE OF HEALTH SPORT IN MANDELIEU**

**Charles Barège**

*Municipal Councilor of Mandelieu La Napoule, "Sports Health" delegate*

1 PM - 2 PM

LUNCH IN THE HEART OF THE PARTNER AREA

# Call for posters and 180-second challenge

REGISTRATION ON

jfbm.fr

## “Call for posters” calendar

Abstract submission deadline:

*August 18, 2025 at 11:59 PM*

Notification of acceptance of summaries:

*September 8, 2025*

Deadline for submitting the poster to the site to be printed and participate in the 180 Second

Challenge selection:

*September 21, 2025*

## Calendar

### "180 Second Challenge"

Notification of poster selection: *September 29, 2025*

Return of presentation materials: *October 7, 2025*

Presentation:

*October 7, 2025*

## Submission of Abstracts

Abstracts are submitted exclusively online on the website [jfbm.fr](http://jfbm.fr)

The topic of the summary is to be chosen from the following:

- Biochemistry
- Delocalized biology
- Hematology
- Molecular genetics
- Immunology and allergy
- IT, e-health
- Microbiology
- Eco-responsible biology, laboratory organization, quality assurance
- Toxicology, therapeutic monitoring

Creating an account is required to submit an abstract. This requires at least one author to register for the Francophone Medical Biology Days (JFBM). Instructions for authors on preparing the abstract and poster are available on [jfbm.fr](http://jfbm.fr).

## Poster submission on site

After notification of the acceptance of the abstract, the poster is prepared using the A0 portrait template that you will receive after notification. The poster must be submitted in PDF format on the website [jfbm.fr](http://jfbm.fr)

The poster is printed in "paper format" by the JFBM organizing committee and will be displayed throughout the days.

## Selection for the “180 Second Challenge”

The scientific committee selects around ten posters to participate in the “180 Second Challenge” session.

The authors will give an oral presentation of their work in 180 seconds, on Friday, October 10, 2025, from 12 p.m. to 1 p.m.

At the end of this session, four posters chosen by the scientific committee will be awarded a JFBM poster prize.

# PRICE INFORMATION

## Registration fees for the scientific program

Registration for the JFBM is done exclusively online. Registration confirmation and paid invoice will be sent to you upon receipt of payment. These rates include: documentation, access to conference rooms, training workshops, the partner area, posters, and breaks. The conference attendee will receive a professional training contract and a certificate of attendance. The entire registration fee must be paid before the Conference, with each participant responsible for any reimbursement. Cancellation is free of charge until 08/09/2025. After this date, the amounts paid will be retained.

Registration for dinner +/- accommodation is only possible if there is registration for the scientific program.

Continuing education organization, ACNBH (Association of National Conferences of Hospital Biologists), registered with the DI(R)ECCTE Île-de-France under No. 11 75 38 61875

	Until 08/09/2025 Discount: -40%
